

MOLENAAR

Established in 1949, HGM continues to be a leading manufacturer and supplier of FOOD PROCESSING machinery, worldwide.

Success driven growth has created the following vacancy in our R & D office based in Century City.

Mechanical Design Engineer

We are looking to employ a graduate mechanical design engineer who has a strong aptitude and passion for creative machine design and who is attentive to detail and enjoys technical challenges.

The successful candidate must have:

- BSc Eng (Mechanical) or B. Eng (Mech) or Mech-elec or Mechatronics degree
- 0 - 2 years work experience
- Experience in machine design
- Experience in a manufacturing environment
- Experience in working on CREO would be preferable

The primary responsibilities would include:

- Produce drawings for manufacturing
- Contribute to conceptual designs
- Attend trials of new equipment, interpret and act on observations and solve problems
- Assist with control systems – draw schematic diagrams
- Focus will be on mechanical design – ability to design control systems (PLC programming) would be an advantage

Interested candidates should send their CV's + transcript of academic results, for the attention of Deirdre Conway (indicate position applying for) to: dconway@hgmolenaar.com
