

Job Opportunity

Commercial and High Speed Boat Designers

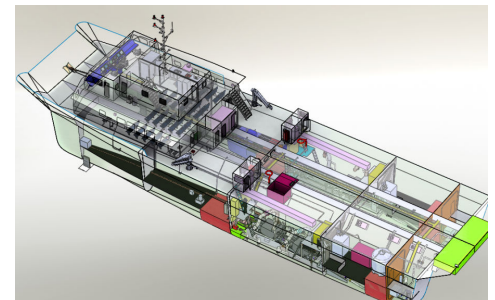

ICARUS
marine

Date: 24 March 2023

Mechanical Engineering position open

Icarus Marine is looking for a junior design engineer who must be interested in, or have some experience in:

- Working as a Design Engineer for a small Naval Architectural company
- Design of high speed boats – Patrol, ferries, workboats, motor yachts.
- Must enjoy using CAD (experience using Rhinoceros would be useful).
- Structural design in Aluminium and/ or Composite materials
- Design of vessel systems including propulsion, sea water cooling, bilge, fire fighting, HVAC, anchoring and mooring systems.
- Scaled model testing
- Working in a small company and willing to make a difference

Starting as soon as possible
Work in Observatory, Cape Town
Flexible working hours
Salary Negotiable
