Positions available for Mechanical & Electrical Consulting Engineers in the Building Industry

SolutionStation Consulting Engineers, a top rated mechanical and electrical practice in South Africa, and leader in green building design, has positions available in electrical and mechanical engineering for university graduates. The initial employment period will be three months followed by a review and possible extension thereafter. Graduates in electrical, mechanical, electro-mechanical and mechatronic engineering will be suitable for the positions on offer.

Working hours will be from 8am to 5pm, Monday to Friday, with a half hour lunch break and two 15 minute tea breaks.

Our website address is <http://www.solutionstation.co.za/>.

As a SolutionStation engineer you will be exposed to the following services in the building industry; Electrical Services, Electronics Services, Security Services, Fire Engineering, Plumbing & Drainage, Vertical transportation and Mechanical Services including HVAC.

The implementation of these building services will cover the following areas:

- Design of the installation
- AutoCad and Revit 3D drafting of design drawings
- Preparation of tender documentation
- Adjudication of tenders
- Overseeing construction
- Periodic site and hand-over inspections
- Certification of payments
- Sign off on Practical and Final Completion
- Preparation of Final Accounts
- As built documentation
- Rectification of latent and patent defects after contract completion

Please submit a copy of your university detailed academic record, and a curriculum vitae to info@solutionstation.co.za. Shortlisted candidates will be contacted for an interview which will be conducted at our offices in Cape Town.

The deadline for the application is 13th October 2023
