

14th August 2023

To whom it may concern,

We currently have an opportunity for Vacation work with a Manufacturing company in Johannesburg. Please see below advert. This will be ideal for a 2nd / 3rd year student.

Vesconite Bearings requires the services of a mechanical engineering student for occasional days of vacation work. The student should be familiar with technical drawing and be able to work on Fusion. The student will be required to complete drawings and 3D renderings. The student will be supplied with a computer for the duration of the vacation work and required to work from 8am to 4:45pm at Vesconite Bearings' offices in Denver, Johannesburg (just off the M2 highway)

Currently the project at hand will require the student for 2/3 days in the next holidays (September/ October 2023)

Visit www.vesconite.com for more information. If you are interested, please email your CV to tanya@vesconite.com with University academic and Matric certificate.

Kind regards,

Tanya Pereira
PA to CEO
