Position Offered: JUNIOR ENGINEER

Our Company is looking for a suitably qualified graduate engineer with a keen interest in hydraulics and pneumatics, who would like to forge a career in the field while learning from the best.

About Us:

DMA has been servicing the marine industry for the past 30 years. We provide comprehensive hydraulic & pneumatic repairs and diagnostic testing of components used in the earthmoving, marine, mining, industrial, forestry, demolition and oil and gas industries. We aim to provide a quality service, with reliability and efficiency within a swift turnaround time.

Our well-equipped facility, conveniently located within central Paarden Eiland, can provide non-invasive testing of hydraulic & pneumatic components.

Job Description:

We are looking for a skilled Junior Mechanical Engineer with a hands on mentality. While we expect to provide the necessary support and guidance to successfully pass on the required knowledge of the trade, we will expect the successful candidate will play a crucial role in providing technical support and expertise to ensure our engineered solutions meet the highest standards. We aim to provide a supportive space for a suitably qualified person to advance their career and grow professionally.

Responsibilities:

- Troubleshooting hydraulic and pneumatic systems.
- Comfortably be able to read and design hydraulic & pneumatic schematics.
- Customer & Staff interaction. The candidate must be proficient in interacting with a range of different management levels, while on site and within the workplace.
- Prepare and maintain detailed technical reports, specifications and drawings etc.

Qualifications:

B.Eng or B.Sc Engineering degree in Mechanical Engineering.

Key Requirements:

- Excellent problem solving skills
- A very keen interest in hydraulic and pneumatic systems
- A willingness to learn and evolve
- A proficiency in engineering software
- Must possess a hands on approach
- Effective communication & interpersonal skills

Company benefits:

- R18 000 – R25 000 cost to company per month
- A company phone
- The use of a company vehicle while in working hours
- The opportunity to advance within the company

How to Apply:

Submit your resume and cover letter to jamie@dmahydraulics.co.za

Should you not receive a response within a week of your submission please regard your application as unsuccessful.
