Engineering posts available:

Job Title: Automation engineer

Job Description:

We are looking for two highly motivated Mechatronic or Electrical Engineers to join our team. The ideal candidate will have to have a good understanding of systems and a keen interest in industrial automation. Programming is very important.

Responsibilities:

- Design and program control systems
- Create P&ID's/E-plans/etc.
- Plan and oversee the manufacturing of hardware of control systems
- Site commissioning

Qualifications:

- At least a Bachelor's degree in Electrical or Mechatronic Engineering (Students graduating in December 2024 also welcome)
 - Preferably Master's Degree in Mechanical or Mechatronic Engineering
- Excellent problem-solving and analytical skills
- Ability to work independently and as part of a team
- Attention to detail and accuracy

If you are a highly motivated who is looking for a challenging and rewarding opportunity, we encourage you to apply.

To apply, please submit your resume and cover letter to info@tfdesign.co.za

Closing: 11 October 2024

We look forward to hearing from you!

Regards,

Johan Kotzé
