

SOLINK JUNIOR PROJECT ENGINEER

Overview:

SOLINK is looking for a Junior Project Engineer with a passion for renewable energy to join our team in Black River Park, Observatory, Cape Town.

About Us/ Company Description:

SOLINK is a specialized renewable energy facilitator that assists C&I companies in taking renewable energy and storage projects from feasibility to commissioning. SOLINK has extensive knowledge of all the major suppliers in the market, the latest technologies, current legislation, and legal requirements, as well as system construction and financing costs. SOLINK can assess the business case, structure and run the procurement process, manage the legal contracts required to appoint suppliers, oversee the project construction, and once constructed can independently monitor a system's performance to ensure optimal outputs in line with the agreed energy guarantees. SOLINK has successfully assisted Old Mutual Properties, British American Tobacco, Siyanda Resources, Liberty Two Degrees, Redefine Properties, Growthpoint Properties, AbinBev and Heineken South Africa.

SOLINK is a dynamic and young company with large ambitions to have a positive impact on the renewable energy sector in Sub-Saharan Africa. This role provides the candidate an opportunity to fulfill a role in a rapidly growing company with large potential.

What you will be doing:

- Management of renewable energy project feasibility analyses across multiple sites, including:
 - Understanding site conditions and information gathering
 - Assisting with determining the best energy Solution for Client's needs
 - Engaging with the Clients to understand the requirements and objectives

- Business case assessments through financial and yield modeling
- Project permitting (SSEGs etc) and technical due diligence
- Reporting and client engagement
- Greenfield solar PV and battery project development
- Stay on the forefront of market movements; proposing new strategies to establish energy users
- Assistance with managing tender process:
 - Assisting with development of tender documentation
 - Liaising with EPCs/ IPP's on tender requirements
 - Assisting with tender adjudication and reporting
- Interface with SOLINK Construction Management and operations departments

What is in it for you:

- Exposure and rapid learning curve to the embedded and distributed solar PV and energy storage markets in South Africa
- Opportunity to work with a fast-growing market leader in the South African renewable energy market
- Introduction to tools and processes used in the RE market
- Start networking in the RSA renewable energy space

Qualification & Skill Requirements:

- Required
 - Technical qualification (Bsc Eng - Electrical/Mechanical/Mechatronic)
 - Drivers license
- Beneficial
 - MSc Engineering Degree (or similar)
 - One year work experience
 - Autocad LT exposure
 - Electrical engineering background or experience
 - Experience with google workplace (docs, sheets, slides)
 - Understanding/exposure to Python and/or Javascript

Physical Requirements:

- Own Transport and drivers license
- Reside in Cape Town or the immediate surrounds

Remuneration:

R320,000 - R400,000 cost to company per annum. Final offer in line with Candidate experience and qualifications.

How to apply:

If you have a passion for renewable energy and think SOLINK might be a good fit for you, please apply here <https://forms.gle/ADLzL8iCCKXhWHya7>
