

## **EMPLOYMENT OPPORTUNITY**

**Title:** Mechanical Design Engineer

**Location:** Stellenbosch, South Africa

We are looking for a young motivated and independent Design Engineer to join our team. The ideal candidate will have a solid understanding of engineering principles and be able to manage projects from concept through to commissioning. Our teams work independently to solve client problems, with each team member taking full responsibility for their work. If you enjoy taking ownership of your work and are motivated by challenges, we would like to hear from you.

### **Responsibilities:**

- Liaise with clients and suppliers
- Analyse client requirements and develop solutions
- Engineering & drafting [Autodesk Inventor] of solutions
- Manage manufacturing and construction of the solutions
- Project Management from concept through to commissioning
- Ensure compliance with industry and company standards
- Maintain accurate project documentation

### **Qualification & Experience:**

- Bachelor's degree in mechanical or mechatronic engineering
- Proficient in CAD software (Autodesk Inventor)
- Strong analytical and problem-solving skills
- Self-motivated, quick to learn with the ability to resolve issues independently and in teams

If you are looking to work in a dynamic environment and gain exposure to a wide variety of projects, we would like to hear from you. To apply, please submit your resume and cover letter to [applications202506@tfdesign.co.za](mailto:applications202506@tfdesign.co.za)

**Closing Date:** 30 June 2025

We look forward to hearing from you!
